

**TUSTIN UNIFIED SCHOOL
GOVERNING BOARD MEMBER**

TAMMIE BULLARD

AGE: 41

OCCUPATION: Governing Board Member, Parent, Business Owner

Since elected in 1996, I have dedicated myself to improving student achievement, providing leadership, and ensuring Tustin schools are recognized as outstanding. I have worked with parents, community, and staff implementing proven curricular programs and prudent policy.

Last year the State rated 10 Tustin schools as a 10 and all others above average when compared to demographically similar schools. Also, the District had the second most California Distinguished Schools in the County.

A recent audit report of the District's fiscal operations states that TUSD is an "unusually efficient operational system," "the District operates a lean administrative model," and the District's \$125 million budget is "on extremely firm ground." We have made great strides in improving facilities during my tenure, building seven new schools and undertaking a \$108 million renovation program for the District's 20 oldest schools.

Positive changes also include: Adoption of rigorous academic standards and curricula; Returning to phonics based reading programs; Increased test scores; Preparing students for the state mandated high school exit exam; Establishing a middle school science/math magnet program; Maintaining class size reduction; and Maintaining safe and disciplined schools.

Your vote for me will ensure TUSD continues to deliver quality education to all students.
